

# BLAU'S COSMIC STAR STAR PARTY ADVENTURE

Blau was a curious 3-year-old with a big imagination. She loved to stare at the night sky, wondering what was beyond the twinkling stars.

One evening, as she gazed up, she noticed something different. A small, glowing comet zipped across the sky, leaving a trail of sparkles.

To her surprise, the comet paused and spoke, 'Hello Blau, I'm Comet Spark, let's go on an adventure!'

Blau climbed onto Comet Spark's back, and together they soared through the sky, seeing planets and stars up close.

As they passed the Moon, Blau noticed it looked sad. 'Why are you sad, Moon?' she asked.

The Moon replied, 'I feel lonely up here, so far from Earth.' Blau felt empathy and thought of a plan.

'Let's have a star party!' Blau exclaimed. They invited stars and comets to gather around the Moon.

The Moon beamed with joy, surrounded by friends. Blau realized that even the smallest gestures could brighten someone's day.

As Blau returned home, she hugged Comet Spark. 'Thank you for the adventure!' Blau said, feeling wiser and content.
